Okada, Y., Miyamoto, T. and Sato, T. The ionic basis of the receptor potential of frog taste cells induced by water stimuli 1

Syed, N. I., Roger, I., Ridgway, R. L., Bauce, L. G., Lukowiak, K. and Bulloch, A. G. M. Identification, characterisation and *in vitro* reconstruction of an interneuronal network of the snail *Helisoma trivolvis* 19

Dickinson, M. H. and Götz, K. G. Unsteady aerodynamic performance of model wings at low Reynolds numbers 45

Maddrell, S. H. P., Herman, W. S., Farndale, R. W. and Riegel, J. A. Synergism of hormones controlling epithelial fluid transport in an insect 65

Baudinette, R. V., Halpern, E. A. and Hinds, D. S. Energetic cost of locomotion as a function of ambient temperature and during growth in the marsupial *Potorous tridactylus* 81

Stewart, J. R. and Thompson, M. B. A novel pattern of embryonic nutrition in a viviparous reptile 97

Nash, G. B. and Egginton, S. Comparative rheology of human and trout red blood cells 109

Kalogianni, E. and Theophilidis, G. Centrally generated rhythmic activity and modulatory function of the oviductal dorsal unpaired median (DUM) neurones in two orthopteran species (*Calliptamus* sp. and *Decticus albifrons*) 123

Thompson, D. and Fedak, M. A. Cardiac responses of grey seals during diving at sea 139

Srygley, R. B. and Dudley, R. Correlations of the position of center of body mass with butterfly escape tactics 155

MacVicker, J. A. K., Billingsley, P. F. and Djamgoz, M. B. A. ATPase activity in the midgut of the mosquito, *Anopheles stephensi*: biochemical characterisation of ouabain-sensitive and ouabain-insensitive activities 167

Swoap, S. J., Johnson, T. P., Josephson, R. K. and Bennett, A. F. Temperature, muscle power output and limitations on burst locomotor performance of the lizard *Dipsosaurus dorsalis* 185

Johnson, T. P., Swoap, S. J., Bennett, A. F. and Josephson, R. K. Body size, muscle power output and limitations on burst locomotor performance in the lizard *Dipsosaurus dorsalis* 199

Fadool, D. A., Michel, W. C. and Ache, B. W. Odor sensitivity of cultured lobster olfactory receptor neurons is not dependent on process formation 215

Feder, M. E., Gonzalez, R. J., Robbins, T. and Talbot, C. R. Bulk flow of the medium and cutaneous sodium uptake in frogs: potential significance of sodium and oxygen boundary layers 235

Gál, J. M. Mammalian spinal biomechanics. I. Static and dynamic mechanical properties of intact intervertebral joints 247

Gál, J. M. Mammalian spinal biomechanics. II. Intervertebral lesion experiments and mechanisms of bending resistance 281

Stone, G. N. Endothermy in the solitary bee *Anthophora plumipes*: independent measures of thermoregulatory ability, costs of warm-up and the role of body size 299

Belanger, J. H. and Orchard, I. The locust ovipositor opener muscle: properties of the neuromuscular system 321

Belanger, J. H. and Orchard, I. The locust ovipositer opener muscle: proctolinergic central and peripheral neuromodulation in a centrally driven motor system 343

Pasztor, V. M. and Golas, L. B. The modulatory effects of serotonin, neuropeptide F1 and proctolin on the receptor muscles of the lobster abdominal stretch receptor and their exoskeletal muscle homologues 363
